

## Special Sessions

The ISVLSI 2015 technical program will include Special Sessions. These sessions are meant to complement the regular sessions by giving a broad overview on a new and emerging topic of interest to the ISVLSI community.

Prospective organizers of Special Sessions should submit proposals indicating:

- Title of the session
- Organizers and their short biography
- Description and objective of the special session and its relevance to ISVLSI.
- List of three (3) contributing papers including the titles, authors, contact information of the corresponding author and a short abstract of each contribution. Organizers should not contribute to more than one paper.

Proposals are due on or before **January 20, 2015**. The special session proposals and the special session papers can be submitted through EasyChair portal by selecting “Special Session Papers (SSP)” from the track list. Proposals will be evaluated based on their timeliness of the topic, quality of contributing papers, and balance of the topics.

Notifications of acceptance will be sent to organizers by **February 20, 2015**. Authors of the papers included in the proposal should submit a manuscript on or before the submission deadline of **April 20, 2015**. Manuscript should confirm the formatting guidelines for regular papers and undergo peer review.
