

IEEE COMPUTER SOCIETY ANNUAL SYMPOSIUM ON VLSI

ISVLSI
2025

www.ieee-isvlsi.org

July 6 -9, 2025
Kalamata, Greece

The Symposium explores emerging trends and novel ideas and concepts covering a broad range of topics in the area of VLSI: from VLSI circuits, systems and design methods, to system level design and system-on-chip issues, to bringing VLSI methods to new areas and technologies like nano- and molecular devices, hardware security, etc. ISVLSI 2025 highlights the theme of Internet-of-Things. Future design methodologies are also one of the key topics at the Symposium, as well as new EDA tools to support them. Over three decades the Symposium has been a unique forum promoting multidisciplinary research and new visionary approaches in the area of VLSI, bringing together leading scientists and researchers from academia and industry. The Proceedings are published by IEEE Xplore. The Symposium has established a reputation in bringing together well-known international scientists as invited speakers; the emphasis on high quality will continue at this and future editions of the symposium.

Technical Committee on Very Large Scale Integration

CAS

General Chairs

Nikolaos Voros, University of
Peloponnese, Greece

Michael Huebner, Brandenburgische
Technische Universität Cottbus-
Senftenberg, Germany

Program Chairs

Georgios Keramidas, Aristotle
University of Thessaloniki, Greece

Paraskevas Kitsos, University of
Peloponnese, Greece

Diana Goehring, Technical
University of Dresden, Germany

Special Session Chairs

Himanshu Thapliyal, University of
Tennessee, USA

Jürgen Becker, Karlsruhe Institute of
Technology, Germany

Theo Theocharides, University of
Cyprus

Publication Chairs:

Venkata Prasanth Yanambaka, Texas
Woman's University, USA

Geancarlo Abich, INESC-ID, Portugal

Local Arrangement Chair

Spyridoula Kouma, University of
Peloponnese, Greece

Steering Committee

Jürgen Becker (chair)
Saraju Mohanty (vice-chair)
Fernanda Lima Kastensmidt
Hai (Helen) Li
Himanshu Thapliyal
Lionel Torres
Michael Hübner
Nikolaos Voros
Ricardo Reis
Sandip Kundu
Sandukta Bhanja
Susmita Sur-Kolay
Theocharis Theocharides
Vijay Narayanan

OBS: Full Committees are in the webpage

Contributions are sought in the following areas

Emerging Trends in VLSI, Nanoelectronics, Molecular, Biological and Quantum Computing, VLSI Circuits and Systems, FPGA Based and Reconfigurable Systems, System Design and Security, SoC and Noc Design, ManyCore/Multicore Designs, ASICs, System Issues in Complexity, Low Power, Heat Dissipation, Power Awareness in VLSI Design, Test and Verification, Mixed-Signal Design and Analysis, EDA, Logic and Behavioral Synthesis, Physical Design. (please, see the webpage for more topics)

The Symposium Program will include contributed papers and invited speakers, and also a poster session. Keynote addresses, special sessions and Student Research Forum are planned as well. Authors are invited to submit full-length, original, unpublished papers. To enable blind review, the author list should be omitted from the main document. All submissions should be in PDF format.

Paper submission deadlines (main track)

Submission Deadline: March 10, 2025

Acceptance Notification: May 10, 2025

Submission of Final Version: May 30, 2025

Apart from the main conference track, authors can also submit papers in the following conference satellite sessions: Special sessions, Quantum workshop, Industry Forum, Student research forum, Research Demo session, Collaborative research projects session. For the submission deadlines of the satellite sessions, please check the conference web site.

Selected papers will be invited for submission to a special issue on IEEE Transactions on Very Large Scale Integration (VLSI) Systems and ACM Journal on Emerging Technologies in Computing Systems. The selection process is based on reviewer feedback and quality of conference presentation.
